

Be a Self-Published Author Now!

How to Self-Publish on Amazon.com

What accounts do I need to set up?:

- kdp.amazon.com Kindle Direct Publishing
- createspace.com Tools for creating your paperback edition
- acx.com Tools for turning your book into an audio book

Amazon will produce and sell your work, and pay you up to 70% royalties. People buy your book worldwide and the royalty is sent directly to your bank account. Amazon, Createspace and ACX will mail tax documents to you.

How do I publish my works?

Upload your Microsoft Word document (minimum of 24 pages for paperback) to the above sites. You select the book cover and artwork from the site or provide your own. Amazon will then publish your work in 160 countries with 13 on-line book stores.

Marketing

Amazon has several promotional programs. They will guide you through the process. These may result in increased sales. You select your book price and royalty amount given the promotion program.

Copyrights

You retain the copyright for all of your published work through Amazon.com.

Royalty Payments

Are made by direct deposit or mail. Consider creating a separate bank account for tax reporting purposes.
